C & S Companies has earned a solid reputation for quality construction, engineering, architectural, and planning services since their inception in 1968. The company works toward the common goal of building, protecting, enhancing, and maintaining a school districts assets. Practical solutions reflect the ability to listen, respond, and incorporate the needs of the clients into efficient, functional and buildable plans. Growing steadily over the years, C& S Companies is currently ranked #149 on the Engineering News-Record’s list of the top 500 Design Firms in the United States.

“C & S Construction Management Group” has a proven track record of completing projects on time, within budget and to the highest level of quality. The company treats each client as a team partner through the process to better address individual needs and to be able to be flexible to handle any issues that arise. C & S is deeply committed to education, particularly in the area of science, technology, engineering and math fields. They will help to integrate and engage your students into STEM and STEAM initiatives. The Company is a leader in STEM Career Exploration events. Many high school-level participants have gone on to become interns at C & S, and eventually full time employees after completing their college studies. C & S hosts an Annual CNY Engineering Expo and offers educators, guidance counselors, and administrators an immersive, professional development program about STEM careers.

What We’ve Done

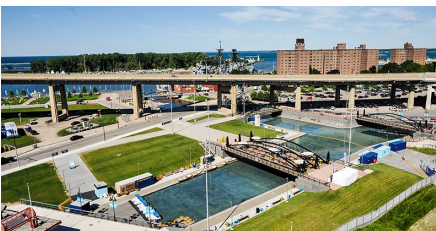

Pictured are recent examples of projects completed by C & S Companies for the K-12 Education Business Sector.

Working Together !

**We not only design schools where your students attend today...
But we design businesses and facilities where your students will work tomorrow!**

C&S provides energy performance contracting, construction management, our Q Ware computerized management and maintenance software, and engineering support to K-12 schools across the region. They have a solid resume of experience on both new facilities, additions, and renovations. They have extensive first-hand knowledge of the crucial elements necessary for the successful construction and operation of K-12 school facilities. Their expertise includes initial project need evaluations, concept programming, concept design, preliminary budget, projected construction aid calculations, and State Education Department document requirements for capital projects. C & S Companies conducts project review meetings for school boards, public meetings, and pre-referendum informational meeting and public comment. C&S has completed many forms of SED documentation, including letters of intent, preliminary submission, final submission, certification of completion, building evaluation forms, annual inspections, building condition surveys and five-year plans.
